NOTE: IT IS MANDATORY TO SUBMIT THE BELOW COMPLETE INFORMATION FOR ALL COMPLEX STRUCTURES

| | | | |
|---|--------------------------|---|--------------------------|
| Overall exhibition or event plan highlighting the location of the structure | <input type="checkbox"/> | A detailed, fully dimensioned, technical plan drawing of each level of the structure | <input type="checkbox"/> |
| Full Stand Dimensions | <input type="checkbox"/> | A detailed, fully dimensioned, technical section drawing of each level of the structure | <input type="checkbox"/> |
| Details of all materials to be used in the construction and finish of the structure | <input type="checkbox"/> | A detailed, fully dimensioned, technical elevation drawing of each face of the structure | <input type="checkbox"/> |
| Details of the provision made within the structure, including material specifications, for protection against fire and the spread of flame (Fire ratings) | <input type="checkbox"/> | Method statement detailing the Safe System of Work by which the structure will be assembled, used and disassembled | <input type="checkbox"/> |
| Details of access and egress routes, including emergency exits from the structure | <input type="checkbox"/> | Design, form and dimensions of every structural element (Beams, Columns, Ties, Braces etc) | <input type="checkbox"/> |
| Materials safety data sheet for all chemicals to be used | <input type="checkbox"/> | Design, form and dimensions of every staircase or ramp > 600mm rise | <input type="checkbox"/> |
| A full risk assessment covering build up, use and breakdown of the structure | <input type="checkbox"/> | Design, form and method of each connection between structural elements | <input type="checkbox"/> |
| Detailed layout of any seating arrangements within the structure | <input type="checkbox"/> | Design, form and dimensions of every base plate for transferring load to the Venue floor (1m ² minimum) (anchoring of base plates to Venue floor is not permitted) | <input type="checkbox"/> |
| Accessible Ramp detail (if design includes platform floor) | <input type="checkbox"/> | Design, form and lateral load resistance of any handrail systems | <input type="checkbox"/> |
| Detail of corner protection or rounding (if design includes platform floor) | <input type="checkbox"/> | Structural design calculations proving structural integrity (To include loading and stability analysis, shear, stress and deflection checks) (Stamped and attested by professional structural engineer) | <input type="checkbox"/> |

NOTE: The contractor / Exhibitor / Organizer is required to submit ADNEC an UNDERTAKING / indemnity LETTER on their company's letter head and 'ADNEC Certificate of Integrity' for the stand's Structural Integrity and stability stating the Load per unit area (kg/m²) on ADNEC Floor and stating that the structure is safe for the intended load.

CONDITIONS AND GUIDANCE FOR ORGANIZERS AND CONTRACTORS

A complex structure is any form of construction of any height, which may require input from a structural engineer. If a stand is not constructed from 'shell scheme', it is the responsibility of the stand designer to determine whether the construction is complex or not.

CONDITIONS

- Submission documentation should explain the method of building the stand including the risk assessment and risk control mechanisms to eliminate, mitigate or reduce the risks.
- Drawings / details should be submitted maximum of 30 working days before and minimum of 10 working days before the start of tenancy.
- Submissions for double-decker and other complex stand – note that 50% charges will be applied if the submission is incomplete or late.
- Regardless of the permission to build from ADNEC, the organizer and the contractor will be fully accountable for the safety and stability of the structure.

EXAMPLES OF COMPLEX STRUCTURE

- Any structure, over 4m in height, which requires structural calculations
- Multi-storey stands
- Temporary tiered seating
- Platforms and stages over 0.6m in height and all platforms and stages for public use
- Tents/ Marquees

SUBMISSION PROCESS

Organisers are responsible for submitting full details of all complex structures no later than 10 working days prior to tenancy. All requirements should be routed through the event organizer and event planner.

1. Detailed, scaled structural drawings showing:

- Plan views of each storey of the stand
- Sections through each storey of the stand
- Elevations including full steelwork and staircase details
- Width and position of gangways within the stand
- Floor and/or roof loading
- Specifications of materials used

2. Structural calculations (in International Unit System)

3. Risk assessment (to include fire hazards) and method statement

4. Written confirmation from the Organiser / Exhibitor/ Contractor structural engineer, with adequate Professional indemnity cover, that the design is safe for its purpose.

If any complex structure is modified after the submission of the above information, plans must be resubmitted with details of all modifications and the Organiser / Exhibitor/ Contractor structural engineer's confirmation that the final overall design is safe for its purpose.

ADNEC Structural Engineer will review this Submission (Provided the complete information required has been timely submitted) and get back to the organizer via event planner with-in 10 working days from the date the submission was received by Structural Engineer /health and safety.

COMPLEX STRUCTURE INSPECTION FORM 2022 (ORGANISER)

To be filled and returned to the Event Planner.

For ADNEC Structural Engineer / Health and Safety use only

| Status | | Comments |
|---|--------------------------|--|
| Reviewed | <input type="checkbox"/> | Structural Elements |
| | | |
| Reviewed with Comments for action | <input type="checkbox"/> | Note: Spreaders (min Area=1m x1m; thickness=18mm) must be used to support the bottoms and ends of columns / wall in order to distribute the concentrated load across a larger area. Final load on the venue floor should not be more than 1t/m ² . Organizers have a responsibility to ensure that items they bring into the venue that form part of their show are safe, fit for purpose and do not exceed the limits(Floor Load=1ton/Sq:metre). |
| Incomplete submission – additional information required | <input type="checkbox"/> | Non-Structural Elements |
| | | |
| Rejected | <input type="checkbox"/> | |

IMPORTANT NOTICE

- The stability, integrity and safety of all display items, features or structures is the responsibility of the supplier, contractor, Organizer and client.
- If any complex structure is modified after the submission of the above information, plans must be resubmitted with details of all modifications and a structural engineer's confirmation that the final overall design is safe for its purpose.
- Comments made relate to submissions during Design Stage review and do not relieve any Contractor from compliance with the requirements of the drawings and specifications.
- This review is limited to general compliance with the requirements of ADNEC rules and regulations.
- ADNEC takes no responsibility for structural stability or integrity of any submission.
- Contractors / Organizers are responsible for confirming and correlating all quantities and dimensions, structural stability, selection of fabrication processes, techniques of construction, coordination of works with that of others and for performance of duties in a safe and satisfactory manner.

COMPLEX STRUCTURE INSPECTION FORM 2022 (ORGANISER)

ADNEC

شركة أبوظبي الوطنية للمعارض
Abu Dhabi National Exhibitions Company

To be filled and returned to the Event Planner.
Abu Dhabi National Exhibitions Company

CATEGORY A – AED 1,654 per SUBMISSION

- Double-decker stand (with structural calculations)
- Bespoke-designed stand over 4 metres in height (steel or wooden construction with structural calculations)
- Platform or stage over 600mm (60cm) in height (with structural calculations)
- Tiered seating (with structural calculations)
- Tent/Marquee

CATEGORY B – AED 551 per SUBMISSION

- Stage less than 600mm (60cm) in height and back wall of stage submitted as one submission
- Stand-alone back wall of stage (above 4 metres in height)

CATEGORY C – NO CHARGE

- Modular system build (trilite or truss) supplied with full data sheets and drawings
- Free-standing signage supplied with method statement and drawings including details of base-plates and ballast
- Flagpoles supplied with method statement and drawings including details of base-plates and ballast

- *All of the above prices are inclusive of 5% VAT*

ADNEC BANKING DETAILS

- Please complete this Form and submit to Customer Services (customer.services@adnec.ae). An invoice will be dispatched in return. Orders will be considered valid only once full payment has been received. If payment has been made prior to invoicing, please send a copy of proof of payment to customer.services@adnec.ae.
- Payment can be made by Credit Card, Bank Transfer, or company cheque.
- Email correspondence regarding payment and invoicing should be sent to ADNEC Receivables (receivables@adnec.ae); Customer Services (customer.services@adnec.ae) to be included in any correspondence.
